in Colonial India: Perspectives of Regina Guha &  
Sudhangshubala Hazra (1916-1924)*

**ABOUT THE SEMINAR**

The perspectives and personalities of colonial and post-colonial India explore a complex blend of historical, cultural, social, and political factors that shaped the country's history. During the colonial period, India was ruled by the British, who exerted significant influence over every aspect of Indian life, including culture, politics, economy, and society. After independence, India faced a range of challenges, particularly the task of rebuilding its economy, creating a stable political system, and addressing the issues of poverty, illiteracy, social and gender inequality. This period was marked by the emergence of many eminent personalities who envisioned India's future through their vision and policies. The post-colonial period has contained new perspectives on India, including those that emphasized the country's diversity, democratic values, and economic potential. Overall, the perspectives and personalities of colonial and post-colonial India were shaped by a complex interplay of multiple historicities, and continues to evolve as the country navigates its way through the challenges and opportunities of the 21st century.

*Invitation Letter*

It is with great pleasure that I inform you that the Department of History in association with IQAC, Surendranath Evening College is going to organise a One Day State Level Seminar on 'Perspective and Personalities: Colonial and Post-Colonial India' on 28th March 2023.

This seminar is going to be a platform for young students, research scholars, academicians and faculty members of different institutions to present their ideas and interact on various perspectives. Your participation is welcome.
