Analysis of Students' Satisfaction Survey for the session 2022-2023

The total response of 430 students were compiled and analysed by the IQAC. After thorough analysis IQAC pointed out some weakness on the part of the institution and address them to take proper remedial measures:

- The students show satisfaction about the overall quality of teaching and learning in the college.
- Field visit opportunities for the students and also student exchange programme need to be increased.
- Weaker section of the students needs special attention from the teachers and for this purpose some extra classes to be taken for those who showed dissatisfaction that their weakness were not properly identified so that they can overcome them.
- We need to engage our students more to continuous quality improvement process.
- The use of ICT tools cannot meet the satisfaction level of the students and thus we need to increase them as much as possible.
